Aluminium is our Business. Making life better is our passion.

The strategic objective of the company Testeral is to ensure uniform quality of our products.

# COMPANY

Testeral company is the largest and most respected manufacturer of aluminum joinery from Serbia.

A

## FAMILY OWNED BUSINESS

Testeral belongs to the Canberra group that was founded back in 1979, 100% privately owned and belongs to the family Vidojević. The group is currently lead by the third generation of the family, of what we are particularly proud of. Thanks to the vision of the second-generation owner Milovan Vidojević, Vice Canberra transforms from a small workshop with two employees to an entire group, which has over 100 employees

B

## CONSTANTLY IMPROVE

Our mission has always been to meet the highest expectations. Satisfied customers and high quality of our products are the result of carefully selected raw materials of the best quality, superior design, production of which is in accordance with the highest standards prescribed by the restrictive quality, as well as help to the customer before and after sales and R & D to create products. Culture of projects, ability to listen, innovative proposals. These are qualities that allow us to realize every request and desire of our customers through unique products. Besides the usual benefits we provide to our customers they have at their disposal our consulting services, help from our engineers and architects.

C

## QUALITY POLICY

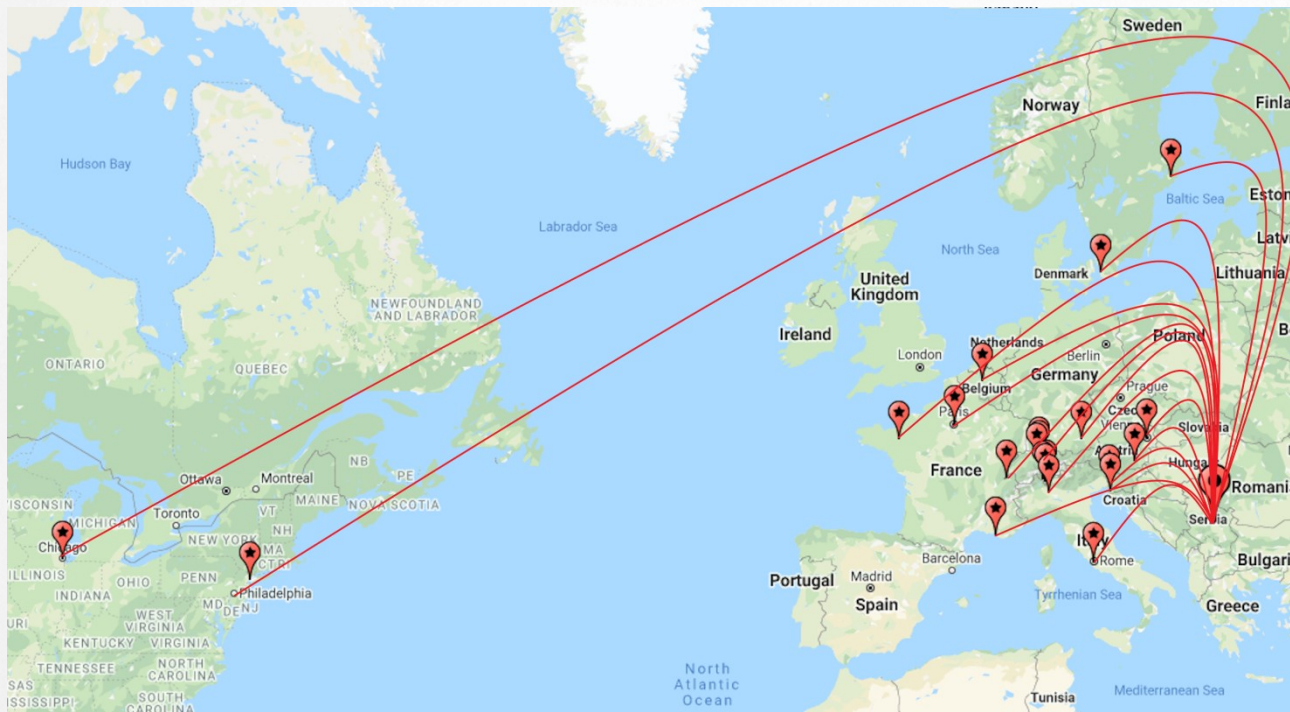

Long-term goals for the quality policy of the company Testeral are:

Fully satisfied customer with our services, developing cooperation, establishing partnerships with suppliers in order to achieve customer requirements, motivating employees and constant care of their further professional training in order to improve the quality of the production process, continuous improvement of the quality management system, contribution to protecting the environment, health and safety at work.

# Our markets
